General Comment:

On 9/16/2019, Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

Junk and debris within the southeastern project area needs to be removed by October 11, 2019.

Reclaim portions of the project area; such as where junk and debris are stored, that are not needed for production operations by 11/15/2019.

See below, and attached photos for additional detail.

Comment Portions of the southern project area are not reclaimed and do not appear needed for production operations. Additionally areas where waste and debris are stored will need revegetation.

Corrective Action Conduct reclamation in portions of the project area; such as the southern project area, not needed for production operations. Seeding needs to be conducted within the fall 2019 seeding window, and no later than November 15, 2019.
