Environmental	<p>A review of information available on COGIS maps indicates that the operator has properly addressed all potential water sources, as defined by the 100 series rules, in the quarter sections within a ½ mile radius of the oil/gas wells.</p> <p>One water shows on the map that initially appeared to be a potential water source, however on further review the water well location appears to be incorrect. The shows on the map in the NENE quarter of section 18 while the location in the permit says SWSW of section 18.</p>	09/23/2019
