Comment:

This form adds panels to clean up the scout card. This form also corrects the perforated intervals of the NB-CD commingled panel, the Niobrara panel, and the Codell panel. Form 5A submitted in 2011 (doc# 2537413) reported the depths incorrectly.

Wireline ticket is attached to this form. If well is TA'd for 6 months, a Form 4 Continued TA Status request will be submitted.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
