Comment:

One (1) meter shed remains at the tank battery location. See attached photos. COGCC staff only inspected the tank battery location, not the well locations.

Operator has performed Final Reclamation activities along portions of the southern and northern tank battery with the evidence of drill rows, straw mulch and germination. Operator shall continue to monitor and manage this site until the location meets Rule 1004 standards, including weed management. Operator shall submit a Form 4 Final Reclamation Complete notice when the location meets Rule 1004 standards. COGCC may conduct follow-up inspections prior to receiving said notice to ensure compliance with Rule 1004.

Corrective Action:

Comply with Rule 1004.a. to remove (regardless of ownership) all debris, abandoned gathering line risers, and flowline risers, and equipment within three months of plugging (2/27/2019) the associated facility. All work should have been conducted by 5/27/2019; therefore, the corrective action is being back-dated.
