COGCC Comments

Comment	User	Date
On 10/8/2019, I received a phone call from the water company who confirmed that the cement slabs, utilities, shed, ponds are all apart of the the water infastructure and not related to the former oil and gas well site. Historic imagery from 1977 shows the two large ponds and access road to the location.	CostaR	10/16/2019
