(DETAILS OF WORK)

This well completed as a J sand gas well in August 1954. The well reached its economic limit in the J-1 sand and an attempt was made to recomplate in the J-2 sand but it was found wet and non productive. It is now proposed to plug and abandon this well or to sell to highest bidder for net salvage only. Whichever course is taken; Your Office will be contacted prior to starting operations so that plugging of this well will be conducted according to the Oil & Gas Conservations rules and regulations.
