Comment: [Prior inspection DOC#693900668 states: Erosion continues along the access road in ongoing issue identified in 2016. Bare soils on cut and fill slopes continue to erode.](#)

Corrective Action: [Erosion and bare soils need to be stabilized immediately. Reclaimed soils will need erosion controls during site stabilization. All stormwater and erosion controls need to be selected, installed, and maintained in accordance with good engineering practices such as those described by CDOT in their erosion control manuals. Corrective action is back-dated to document time out of compliance.](#)
