Comment	User	Date
This is a follow up inspection per Doc#688402001. All corrective actions appear to have been addressed at time of inspection. After futher review production tank is just outside of the flood plane. Flood plane requirments are not required. At time of inspection i did observe tank is starting to rust and large portions of paint are peeling off. Comply with rule 605 a(1) Corrective action date of 12-6-19 see photos	silverr	11/06/2019
