A jurisdictional agency determination is hereby made that the natural gas referred to above ~~does/does not~~ qualify as natural gas produced from a new onshore production well in accordance with the applicable provisions of the NGPA.

Douglas V. Rogers
 Douglas V. Rogers, Director

Date: NOV 15 1982

The Jurisdictional Agency determination was based on information contained in or added to the Application. Review by the professional staff of the Colorado Commission indicates that this well is an (New) ~~(Old)~~ well. The well produces from the "D" Sand

reservoir(s); and was drilled after February 17, 1977. The well is not located in a spaced area but located according to Rule 318 which establishes a minimum 40 acre unit. The well is the first and only well on the unit.

This conclusion was originated by examination of plat records maintained by the Colorado Commission, completion report, and statements in the application.

Which show this well is a new onshore production well and was not drilled into a proration unit.

And meets the qualifications of a (103) well as defined in the N.G.P.A.
