17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

18. Date of work June 6th, 1987

* Must be accompanied by a cement verification report.

After setting surface casing, well was drilled to a total depth of 5139' and electric logs run. Since there was no significant show of oil or gas, well was plugged and abandoned as follows:

- 20 sack cement plug from 100' to 140'
- 10 sack cement plug from surface to 30 feet.

Hole was filled with heavy mud, Bottom Hole Cement Plug was waived and a steel cap was welded on surface casing as requested by Commission Representative June 6th, 1987.
