 Nature of Complaint: odor/Air Quality  
 Field Inspector Actions:  
 On 11-14-2019, I Randy Silver area field inspector was assigned a complaint received by COGCC staff in reference to Odor/Air Quality. The complainant Amanda Harper 517 County Road 18 Longmont CO stated the issues were occurring outside of complainants home.  
 On 11-19-2019, I attempted to make contact with the complainant who indicated that on 11-12-19 she saw a plume of dark brown cloud from Regnier well site during the Flow back phase.  
 I performed a complete site inspection of the oil and gas location and associated wells in the area. At time of inspection, I did not smell any unusual odors but did observe emissions from location. Regnier farms is currently in the fracing stage not Flow back. There are three frac crews on site two tier 2 and one tier 4 fleets.  
 At time of inspection, I spoke with fracing supervisor he stated at time of complaint they were fracing and no unusual activity was taking place.  
 Weather conditions: Clear  
 See inspection document #693501711 per my inspection.  
 No violation of COGCC rules were observed at the time of the inspection.  
 All information reviewed and site inspection information were submitted to the COGCC for further review.
