RE: Rule 318A.a & Rule 318A.c.(2) Surface Locations

Ivey Pad
Township 1 South, Range 68 West, 6th P.M.
Section 11: SWSE
Adams County, Colorado

Grizzly Petroleum Company, LLC:

Great Western Operating Company, LLC (“Great Western”) plans to drill oil and gas wells from the above-described surface locations.

Rule 318A.a of the Colorado Oil and Gas Conservation Commission (“COGCC”) Rules and Regulations requires that wells drilled within the Greater Wattenberg Area (“GWA”) be drilled in a square with sides four hundred (400) feet in length, the center of which is the center of any governmental quarter/quarter section (“400’ window”); or a square with sides eight hundred (800) feet in length, the center of which is the center of any governmental quarter section (“800’ window”).

The Colorado Oil and Gas Conservation Commission Rule 318A.c. (2) states that, “when an operator is requesting a surface well location greater than fifty feet (50’) from a well. . .the operator shall provide a consent to the exception signed by the surface owner on which the well is proposed to be located in order for the Director to approve the well location administratively.”

For safety and mechanical considerations, as well as surface constraints, Great Western is seeking from the COGCC an exception to this rule. Please indicate your consent to the COGCC waiving this requirement by signing below.

Respectfully,

Geoff Lee
