Julio -

I spoke briefly with the BLM as to the wells belonging under the Federal jurisdiction, but for which we have no or outdated information.

They suggest doing the following which is some work:

Make a listing of wells including Federal lease #

Name	Lease #	Loc
Federal 1-33	C-23488	SE/5W-533-T65-R102W

They will print a "Register Sheet" which contains their information including current operator, etc. I suggest we do a list of six or eight wells to see what we get back. If it works, we could probably go through Current well drawers making list in W.P..

Other wells like Cannon suggest write separate letter or request to BLM to see what they can furnish.
