Denver, Colorado

Dear Mr. Louis:

I have enclosed a letter dated January 16, 1961, addressed to me as agent for Sherwood Oil Company from the Colorado Oil and Gas Conservation Commission together with various forms they want to have completed and returned to them concerning Sherwood Oil Company's #1 Federal well. Mr. William R. Smith, Chief Engineer of the Commission told me that the first request for these reports was mailed about the middle of December, 1960 to Sherwood Oil Company, Bedrock Building, Columbus, Nebraska.

Since I am no longer acting as your agent would you fill out the Designation of Agent form I have enclosed and return it to the Conservation Commission in order that all future notices will go directly to you, Cleo Robak or whomever you designate in the forms.

Very truly yours,
J. V. Kowalski
