Comment:

Operator has performed Final Reclamation activities with the evidence of desirable vegetation establishment. Well location appears reflective of reference area vegetative levels; however, the access road and tank battery location will remain in process. Operator will need to remove the perimeter fence.

Operator representative, Kyle Waggoner, was at location with COGCC staff, Chris Binschus. Operator indicated that further reclamation activities would be performed prior to the start of the Spring 2020 growing season.

See COGCC Comments section for additional compliance information.
