Operator Comments:

The permits for the Hayward 0993-25-09 pad (location #455725) and 22 wells were approved 6/29/2018. Laramie Energy has made changes to the wells: 8 of the wells will be dropped, and the SHL and the BHL of the wells have been changed. Thirteen of the wells are fee/fee, one well is fee/Fed; all wells are located in CA COC 76718.

-There is no change in the QQ as a result of the SHL or the BHL changes. The BHL of five of the wells did cross the 1/16th line.

-No changes will be made to the pad; it is a sufficient size to accommodate the changes.

-A building is located 842' from the production facilities on the pad. With the changes in the SHLs, the production facilities remain closer to the building. The distance to the nearest school is over 5,280'.

-There are no changes to the objective formations.

Form 4 doc #402051337 has been submitted with an updated multi-well plan.
