General Comment:

This is a Reclamation Inspection of the Hassler #24 well site which was Plugged and Abandoned on 2/15/2014.
See attached photos and additional details within this report.

Operator is directed to perform corrective actions outlined on this inspection report immediately. This inspection is being entered for notification and documentation only and is not intended to provide the Operator the opportunity to resolve the alleged violations without the imposition of a penalty, pursuant to Rule 522.c.(1). Perform corrective actions immediately to avoid further enforcement and potential penalties.

Comment: The access road and location have not been recontoured and reclaimed. There is cable debris that remains at the location. The soils are not stabilized and are susceptible to erosion. All equipment and debris should have been removed within 3 months after abandonment and reclamation completed within 12 months of abandonment.

Corrective Action: _____ Date _____

Comply with 1004 Rules.
Recontour and reclaim the access road and location.

Overall Final Reclamation

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment

Comment: The soils are not stabilized and are susceptible to erosion. BMP's must be implemented in accordance with good engineering practice and must be maintained until final reclamation is achieved.

Corrective Action: Install or repair required BMPs per Rule 1002.f.(2)C.
Corrective action date is the date the location was observed out of compliance, as the location should be in compliance at all times.

Date: 12/04/2019

Pits: ☒ NO SURFACE INDICATION OF PIT

COGCC Comments

Comment	User	Date
Ensure soils are properly recontoured and decompacted by cross ripping to a depth of 18inches.	CostaR	12/06/2019
Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed.	CostaR	12/06/2019
