**General Comment:**

On 12/3/2019 COGCC Environmental; Staff, Kris Neidel was present to observe sampling activities as a part of remediation project ID # 14494 (pit facility 113016). The weather was 30 degrees, approximately 6" of snow covered the ground. This is a Environmental inspection and deals specifically with Environmental Issue. Randy Booco was present to collect sample and operate backhoe. The Pit location was measured from the wellhead and berm, per measurements found in as-builts in the pit file. At approximately 8 feet below surface, indication of the pit bottom was observed as grey sand, the sand had a slight hydrocarbon odor. A sample was collected at 10 feet for COGCC table 910-1, the sample was collected consistent with COGCC rule 910.b.3.(B).
