 Nature of Complaint: Light odor and noise
 Field Inspector Actions:
 On 12-08-2019, I Randy Silver area field inspector was assigned a complaint received by COGCC staff in reference to Odor/lights and noise. The complainant Pat Young 10503 Cimmarron St Firestone CO stated the issues were occurring outside of complainants home.
 On 12-09-2019, I attempted to make contact with the complainant who indicated that on 12-06-19 she arrived home at 5:30 pm to a lighted tower rig and excessive noise. When I spoke with complainant, she stated the crew shut down about 6:30 PM. Complainant stated she just wanted to understand process.
 I performed a complete site inspection of the oil and gas location and associated wells in the area. At time of inspection, I did not smell any unusual odors or noise. All lights appeared to be pointed down. Crew was performing P&A operations. I informed complainant crew would be rigging down and leaving 12-10-19.
 Weather conditions: Partly cloudy location wet and muddy.
 See inspection document #693501880 per my inspection.
 No violation of COGCC rules were observed at the time of the inspection.
 All information reviewed and site inspection information were submitted to the COGCC for further review.
