ROY ROMER  
Governor

July 19, 1993

Mull Drilling Co.  
P.O. Box 2758  
Wichita, KS. 67202

Gentlemen:

The following wells are in violation of Commission rule 317:

Champlin Aldrich #2 NENE 33 13S 44W Cheyenne County, CO.

Roth #3 SWNE 5 14S 44W Cheyenne County, CO.

Las Animas Minerals #1 NWNW 28 13S 47W Cheyenne County, CO.

The Commission is requiring that the wells be plugged per Commission specifications, that all applicable piping and debris be removed from the well sites and unused tank battery sites, and that the locations be properly restored by August 20, 1993.

The following wells are in violation of Commission rule 315-r:

Kern A #5 SESE 28 13S 44W Cheyenne County, CO.

Morgan #1 SENW 22 16S 51W Cheyenne County, CO.

For the Kern A #5, the Commission is requiring that the reserve pit be backfilled by August 20, 1993. Because Mull has requested plugging instructions on the Morgan #1, in an effort to allow Mull the opportunity to better coordinate plugging and restoration activities, the Commission will allow Mull until October 20, 1993 to backfill the reserve pit for this well. The recommendation that this matter be reviewed at Commission hearing will be made if these requirements are not met.
