Qtrqtr: NENW Sec: 18 Twp: 3N Range: 64W Meridian: 6
Latitude: 40.231120 Longitude: -104.594900

FACILITY - API Number: 05-123- -00 Facility ID: 412045

Facility Name: LSWD Number: 1
Qtrqtr: NENW Sec: 18 Twp: 3N Range: 64W Meridian: 6
Latitude: 40.231120 Longitude: -104.594900

CORRECTIVE ACTIIONS:

1 CA# 135165

Corrective Action:

Date: 10/31/2019

Operator shall comply with the following COGCC rule(s):

1101.a. (Partial) Off-Location Flowline Registration. (1) An operator must register an off location flowline constructed on or after May 1, 2018, by submitting a Flowline Report, Form 44, to the Director within 30 days after the flowline is placed into service. An off location flowline in existence prior to May 1, 2018, must be registered by October 31, 2019. An off-location flowline registered as part of a produced water transfer system is not subject to this requirement.

1101.c.(Partial) Crude Oil Transfer Line and Produced Water Transfer System Registration.

(1) Registration. At least 10 days before beginning construction of a crude oil transfer line or produced water transfer system, an operator must register it by submitting a Flowline Report, Form 44, to the Director. The submittal must include a layout drawing sufficient to show its route, its crossings of public by-ways, road crossings, sensitive wildlife habitats, sensitive areas and natural and manmade watercourses and the surrounding topography. For a crude oil transfer line or produced water transfer system constructed before May 1, 2018, the operator must register it by submitting a Flowline Report, Form 44, to the Director by October 31, 2019. The submittal must include the information specified in section (2) below, to the extent such information is or becomes known by the operator or can be acquired from such relevant records in the possession of the operator or its immediate predecessor in interest.

Response: FACTUAL REVIEW REQUEST

Basis for Review: Findings are inappropriately tied to multiple wells

Operator Comment: Select Energy Services objects to the corrective action outlined in the document 690101560 , COGCC Rules 1101.a. and 1101.c. As the flowline to the injection well is not off of the facility location. It runs enclosed in the facility location. The interior roadway is for facility only use, it is not for any type of public use and is fenced off from general roadways, such as WC RD 34 and WC RD 49. Please update field inspection to show in compliance. Thank you

COGCC Decision: Approved

COGCC Representative: Facility layout drawing submitted by operator. Based on communication with operator and review of information received, it has been determined the LSWD 1 (IJ/ wellhead) flowline is on location; COGCC Form 44 is not required for this flowline.

OPERATOR COMMENT AND SUBMITTAL

Comment:

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
