Complaint

Comment: Inspection in response to complaint.
 Field Inspector Assigned: Randy Silver
 Complaint Received
 Date: 12-12-2019
 Complaint Contacted:
 Date: 12-14-2019 Time: left voice mail, complainant called back 12-16-19 met her at her home at 3:00PM.
 Location ID # 460107
 Location name: Brant LE
 Inspection Document # 693501994
 Complaint Document # 200448425
 Nature of Complaint: Noise
 Field Inspector Actions:
 On 12-12-2019, I Randy Silver area field inspector was assigned a complaint received by COGCC staff in reference to noise. The complainant Christina Cullen 11420 E 163rd CT Brighton CO stated the issues were occurring outside of complainants home.
 On 12-14-2019, I attempted to make contact with the complainant she called me back on 12-16-19 met complainant at her home who indicated that on 12-11-19 she experienced rumbling like an endless stream of big rigs. The noise was so loud last night that it was noticeable with all the windows and doors shut. After speaking with complainant, we determined the noise issue was not coming from the Baseline location but from the Brant LE. At time of inspection Baseline, location has started drilling surface casing. I performed a complete site inspection of the oil and gas location and associated wells in the area. At time of inspection, I did not observe any unusual noise in or around location. At time of inspection, I spoke with JW Cooper drilling supervisor he stated at time of complaint they were drilling and no unusual activity was taking place. Supervisor stated they had not set up sound study equipment, but will have initial study done on 12-17-19 and submit data to COGCC.
 Weather conditions: Clear location dry
 See inspection document #693501994 per my inspection.
 No violation of COGCC rules were observed at the time of the inspection.
 All information reviewed and site inspection information were submitted to the COGCC for further review.
