(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Date of work March 22, 1976

Well was spudded on 3/16/76. After setting surface casing, well was drilled to total depth of 5190' and electric logs run. One drill stem test was run in "D" Sand and another in the "J" Sand. Results of both tests were negative so well was plugged and abandoned as follows:

A 15 sack cement plug was set from 95' to 125';
 a 10 sack cement plug was set in top of surface to 30'.
 Hole was filled with heavy mud.
