COMMENTS:

On 12/17/19, Caerus determined that it would no longer need water from TEP Rocky Mountain LLC under the previously approved water share (Doc #402120460). This Sundry Notice marks the end of the 2019 water share between Caerus and TEP. To satisfy the annual reporting condition of approval, the total volume of produced water transferred to Caerus under the water share was 290,248 bbls. TEP will submit a separate sundry with analytical results upon receipt. Please note, Caerus and TEP are working towards a water share agreement for 2020, which will use the same infrastructure but with updated completions locations. The formal notification of the future share will be separate.

Please route to Alex Fischer.
