CONSERVATION COMMISSION

SUNDRY NOTICES AND REPORTS ON WELLS

INSTRUCTIONS

Notice must be given to the Director, and approval obtained in advance of the time when the owner or operator expects to recomplate or abandon a well or to change plans. Within thirty (30) days after recompletion, change of plans, or remedial work, a detailed report of the work done and the results obtained shall be submitted on this form in duplicate for wells on Patented and Federal lands, and in triplicate for wells on State lands. In work that affects only rods, pumps or tubing or other routine work such as, but not limited to, cleaning out to previous total depth, no report is necessary.

LEASE NAME RIEKE WELL NO. D-1
 FIELD Horsetail WILDCAT COUNTY Logan
 LOCATION NE NW Section 2 Township 9 N Range 54 W Meridian 6PM
 (Quarter Quarter)
668 feet from North Section Line and 1978 feet from West Section Line
 N or S E or W

(DETAILS OF WORK)

This well completed in February 1955 as a "D-1" sand oil well pumping 40 barrels oil and 12 batrels water per day. Production declined rapidly and two acid wash jobs only temporarily halted the decline. Well was temporarily abandoned June 31, 1958 with a production of no oil and 7 barrels water per day. It is now proposed to perforate interval 5007-5010 in D-4 sand with 4-80 gram jets per foot, run BOC-8-5½"x 2" Packer on 2" tubing and set at 4990 which is 14 feet below original perforations. The D-4 sand in this well is a proven gas reservoir and 330 MCF per day is the expected production after recompletion.
