 Address: 2835 VILLA WAY #4  
 City: GRAND JUNCTION State: CO Zip: 81501

**ANY CORRECTIVE ACTION(S) FROM PREVIOUS INSPECTIONS THAT HAVE NOT BEEN ADDRESSED ARE STILL APPLICABLE**

**Inspected Facilities:**

Facility ID	Type	Status	Status Date	Well Class	API Num	Facility Name	Insp Status
230921	WELL	PA	10/01/1980	DA	103-08590	EMERALD 80-1-9	RI

**General Comment:**

On January 6th, 2020, Reclamation Specialist Trujillo conducted a Final reclamation and stormwater inspection at D&D Resources Inc's Emerald 80-1-9 Location in Rio Blanco County, Colorado.

It was observed that no dry hole marker as been installed, or plugging and abandonment records have been submitted for this Location:

FIR #673501054 identifies a well marker on the Location that reads "Equity NW/NE Emerald 122". This information is incorrect; dry well marker identified in this FIR is Located on the Emerald 230 Location (103-0874), approximately 75 yards southeast of the Emerald 80-1-9 Location; Marker is also incorrectly marked. See inspection #696200905 for additional details.

It was also observed that the utility lines/poles leading to the Location have not been removed.

The following alleged compliance issues were observed during this inspection:  
 - Missing plugging/abandonment records  
 - Removal of equipment

Refer to the "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Unable to find Operator email contact for FIR submission; Inspection will be mailed 1/9/2020 via USPS to physical address on file:

D&D Resources Inc  
 2835 Villa Way #4  
 Grand Junction , CO 81501

Additionally, COGCC records show D&D Resources Inc as a rider for a bond under Diamond Back Drilling & Supply Inc; Inspection is also being submitted to Diamond back.

It is noted that several other D&D Locations within this field are also out of compliance: Due to the significant nature, extent, or duration of alleged rule violations, immediate referral to enforcement is required. Perform corrective actions immediately to avoid further enforcement and potential penalties.

Comment:

Doc. #2106540 required Operator to either 1) Pass an MIT or 2) PA the well and submit a Form 6 Intent to Abandon and a Form 6- subsequent report of abandonment, in order for Location to return to compliance.

No well marker has been placed on the Location, and Operator has failed to provide required documents showing plugging/abandonment records and procedures.

It was also observed that utility lines/poles leading to the Location have not been removed.

Corrective Action:

Two corrective actions are being provided in this section: 1) Comply with Doc. #2106540 and submit required plugging and abandonment records (Form 6- Well abandonment). 2) Conduct reclamation including, but not limited to, the removal of remaining utility equipment. No CA date is being provided as Operator is directed to perform corrective actions outlined on this inspection report immediately. Doing so may decrease the duration of the alleged violations and the penalties that may be assessed pursuant to Rule 523.
