General Comment:

This is an orphaned well inspection. Inspection completed to document progress and completion of flow line abandonment task.

Inspection may also identify possible task required for final closure/release of location from the Orphaned Well Program.

See link at end of report for path to downloadable pictures.

Well was previously plugged and abandoned with flow line left in place.	stjohnw	01/03/2020
Flow line was hooked into vacuum truck and trapped fluids were removed. Line was excavated and flow line cut off approximately 4' below grade. Line cement plugged and excavation backfilled and dressed. Flow line abandonment for location is complete. Site is ready for final reclamation task.
