Comment: The perimeter of the location is fenced and a cattle guard remains at the location. The cattle guard will need to be removed so it can be filled in and reclaimed. The fence will also need to be removed once vegetation establishes. The western portion of the location has areas that are mostly weeds. The eastern portion has well established native vegetation. Additional seeding will need to be performed to adequately establish vegetation in areas of the location. See attached photos.

Corrective Action:	Comply with 1004 Rules. Remove cattle guard and reclaim disturbance. Reseed areas of the location to establish vegetation.	Date	04/17/2020
