Corrective Action: Interim reclamation needs to be conducted during the spring 2019 planting window, and no later than April 30, 2019, as large portions of the well pad do not appear needed for production operations.

Date: 04/30/2019

Response: CA COMPLETED

Date of Completion: 04/29/2019

Operator Comment: Per 1003 Rules, Operator conducted Interim Reclamation of areas no longer in use. Areas needed for production operations, including equipment operation, access, and oil truck turn around, are clearly delineated. Interim reclamation activities included recontouring and decompacting of unused areas via cross-ripping, topsoil spreading, soil amendment and hydromulching/hydroseeding. Fencing has been installed to prevent driving and/or operations on newly reclaimed areas.

COGCC Decision: Approved pending re-inspection
