General Comment:

This is an Abandoned Location Inspection, for Seven Wells, listed in Inspected Facilities, above. APDs were first Approved in 2008 for Antero; Permits Abandoned in 2014 by Ursa. It does not appear that these AL Wells were drilled on Location with Two Producing Wells; therefore, these are Well Releases on an Active Location.

These Wells were passed for Final Reclamation in 2015; however they were inadvertently Checked in Field Inspection in 2019 giving them an Active Priority Status. This Inspection clears the mistaken Active Priority Status.
