NWSW 30-3S-56W  
Washington County, Colorado

Dear Sir,

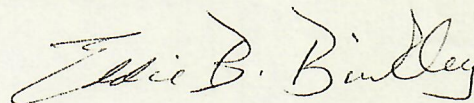

The above captioned well has been plugged. However an on-site inspection on October 6, 1988 revealed that additional material and equipment must be removed and final leveling of the site completed prior to approval for site abandonment. If applicable anchors should be removed and risers cut off 3' below G.L.

Please notify this office in writing when all abandonment work is completed. Oil and Gas Conservation Rule 317 and 319 require locations to be restored within a reasonable time, not to exceed six (6) months, to their original conditions.

It is recommended the restoration be completed at the earliest convenience with mutual agreement of the operator and land owner.

Please feel free to contact this office if there are further questions.

Sincerely,

Eddie B. Binkley,  
Petroleum Engineer
