**General Comment:**

This is a reclamation inspection of the Niebur #41-2 well site which was plugged and abandoned on 6/16/2013.  
 The location does not comply with the final reclamation requirements.  
 See attached photos and additional details within this report.

VEGETATIVE COVER FAIL

Comment: The desirable vegetation has not established and there is predominately undesirable weeds. A quantitative assessment of the vegetation cover was performed indicating vegetation is not 80% of the surrounding reference area. The location will need to be reseeded to facilitate vegetation establishment and weed control will need to be performed. The location will need to be monitored and maintained until final reclamation is achieved.
