- Status Update/Change of Remediation Plans for Spills and Releases

COMMENTS:

Per the Surface Owners recent request we are needing to change the Access Road from the permitted one to this: There is a hill on the E/W County Road 30 about 100 yards from the SE corner of the section and the surface owner has an existing access road for safety reasons at the top of the hill, as opposed to at the bottom of the hill where the current access road is proposed. The surface owners access road enters at the top of the hill into Section 34, then bends toward the NE. Operator proposes the New Access Road to begin straight East of the well pad at the point where the existing access road is adjacent to the fence line on the east side of the section. The existing access is 888' long at this point and the new access road would be 592' straight west to well pad. Updated diagrams and maps are attached.

H2S REPORTING

Data Fields in this section are intended to document Sample and Location Data associated with the collection of a Gas Sample that is submitted for Laboratory Analysis.

Gas Analysis Report must be attached.
