General Comment:

On 1/28/2020 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

-Weeds need to be managed within the interim reclamation areas by 4/1/2020. As desirable vegetation is present beneath the weeds work should be conducted to avoid damaging desirable vegetation and should be conducted with dry soils.

See below, and attached photos for additional detail.

1003 f. Weeds Noxious weeds?

Comment Dense annual weeds such as kochia and tumble mustard are present and inhibiting establishment of desirable vegetation and needs to be controlled. Desirable vegetation observable beneath weeds.

Corrective Action Control weeds to promote establishment of desirable vegetation. Corrective action date is extended to allow for work to be conducted when soils are drier and to avoid damaging existing desirable vegetation beneath weeds.

Date 04/01/2020
