- Report of work done on well since previous report _____

Following is a (notice of intention to do work) February 28, 19 53
~~(report of work done)~~ (On land) * (patented) described as follows:

State	County	Field
Colorado	Weld	LONG
#1	Ella Long	NW 1/4 Sec. 24
(Well No.)	(Lease)	(Sec. and 1/4 Sec.)
		12N
		56W
		6th P.M.
		(Twp.)
		(Range)
		(Meridian)

The well is located 330 ft. ~~(N)~~ ^N of ~~W~~ ^S line and 990 ft. (E) of ~~W~~ ^W line
Sec. 24-12N-56W (C/ SE SW NW) ~~(S)~~ ~~(W)~~

The elevation above sea level is _____ ft.

Details of Plan of Work: (State names of and expected depths to objective sands; Show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work.)

- (1) We propose to drill a well at the above location; said well to be drilled to and into the basal section of the "J" sand of the Dakota sand series expected to be encountered at an approximate depth of 6,200 feet, unless commercial production is encountered above foregoing objective.
- (2) We will set at an approximate depth of 400 feet, 10-3/4", 45# surface casing and cement solid.
- (3) In the event commercial production is found, we will run 5 1/2" production casing to the top or thru the producing horizon and cement the production casing with a minimum of 200 sx.
- (4) Copy of Powers Elevation Company's survey plat showing exact location and ground elevation will be furnished to you within the next few days. As soon as rig in on location the kelly bushing elevation above sea level will be furnished to you.
- (5) All work will be done in conformance with the rules & regulations approved by the Oil & Gas Conservation Commission of the State of Colorado and effective Jan. 9, 1952. Timely reports will be submitted to the State Oil Inspector.
