

February 23, 1966

H. N. Rhodes, Director  
Nebraska Oil and Gas Conservation Commission  
P. O. Box 105  
Sidney, Nebraska

Dear Dusty:

We have received a Notice of Intention to Drill the No. 1 Long well in Sec. 24, T-12N, R-56W, Weld County, Colorado, which was discussed with you sometime last week.

I have enclosed for your information a copy of the intention and of the order for the Peavy Field in which it is located.

Since this meets all of the requirements of the rules and regulations of the Oil and Gas Conservation Commission it will be approved; however, since it is a direct offset to the Nebraska line, we shall withhold approval until February 28, barring unforeseen complications.

Any comments you may care to make will be appreciated.

Very truly yours,

OIL AND GAS CONSERVATION COMMISSION

D. V. Rogers, Director
