

well file

June 29, 1960

Grady W. Perkins
P.O. Box 818
Denver 1, Colo.

Dear Mr. Perkins:

Again we contact you regarding requirements of this office, making special reference to your No. 1 Moyer well in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 29, Township 12 North, Range 56 West, and your No. 1 Patton well in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 3, Township 2 North, Range 62 West. You have been contacted once on the Moyer well and twice on the Patton well regarding information required by this office.

We are in need of a plugging record, Form 6, and a well completion report, Form 5, on the Moyer well; and a Form 5, completion report, on the No. 1 Patton well. Electric logs and core analyses are to be submitted on both the wells if run.

I might call your attention to Rule 306, page 11 of our Rules and Regulations, which states, "Within thirty days after the completion of any well, the owner or operator shall transmit to the Director in triplicate the well completion report, Form 5, for wells drilled on Patented or Federal lands, and in quadruplicate for wells drilled on State lands. Upon request, geological information will be kept confidential for six months after the filing thereof."

It is apparent that, since the last of January 1960, you are in violation of this particular rule on each of subject wells. Your prompt and immediate attention to this matter is requested, and if you have any questions, please contact us.

Very truly yours,

OIL AND GAS CONSERVATION COMMISSION

WRB:cm

William R. Smith, Senior Petroleum Engineer

cc: Mr. Kelly O'Neill, Jr.

7-20-60

Talked with O'Neill. He will try to get info. and fill out forms. Perkins is sick.
DWR

8/23/60 - #1 Moyer checked for plugging, appears O.K.
