## SUNDRY NOTICES AND REPORTS ON WELLS

## INSTRUCTIONS

Notice must be given to the Director, and approval obtained in advance of the time when the owner or operator expects to recompleate or abandon a well or to change plans. Within thirty (30) days after recompleation, change of plans, or remedial work, a detailed report of the work done and the results obtained shall be submitted on this form in duplicate for wells on Patented and Federal lands, and in triplicate for wells on State lands. In work that affects only rods, pumps or tubing or other routine work such as, but not limited to, cleaning out to previous total depth, no report is necessary.

## (DETAILS OF WORK)

This well was shut-in April 1, 1960, after decreasing to 2 bbls. oil and 2 bbls. water per day. We have depleted all possible oil zones in this well and now propose to set necessary cement plugs and plug and abandon well per state specifications.

We propose to set 10 sack cement plug in shot off pipe; to be shot at approximately 4850'. Plug will be from 4892 to 4808'. Place 10 sack plug at base of surface and 10 sack plug at top of surface and weld a 1/4" steel plate over top of 8-5/8" surface pipe, 18" below ground level and clean location.
