<p>COGCC Inspection Report Summary  On Tuesday 2/5/2020 at approximately 1550 hrs. I, Inspector Robbie Revas, Conducted an on-site inspection at a Kerr McGee location: Mleynek #28-15 JI at API #05-123-20080 in Weld County Colorado. While there, I observed a shut in wellsite &amp; tank battery. This is a follow up inspection per Doc. # 699300710  During this inspection the following possible compliance issues have been addressed: Housekeeping 603.f: Unused equipment on location due to horz.prep. See attached photos.  Location is snow covered, weather is clear.  I spoke with Luke Ready and he informed me that the equipment has been set aside temporarily until FRAC is done and then will be put back into service.  No follow up on this site inspection needs to be conducted to ensure the Compliance issues have been corrected to comply with COGCC rules.  Continuing education COGCC Inspection Report Summary.  This is a summary of inspection report.</p>	revasr	02/05/2020
