Comment

Operator has performed interim reclamation activities to reduce disturbance to areas only needed for production.

Interim reclamation areas were mowed during the time of inspection; follow up during the growing season will be necessary to evaluate germination of seeded areas.

During the inspection some off site weeds (Kochia scoparia) were carried onto the site; continue to manage this location within rules 1003 standards to include stormwater and weed management.

Comment: Operator has removed all construction stormwater BMPs from the location after performing interim reclamation. Due the size of the well location and topography, stormwater BMPs will need to be installed.

Per rule 1002.f., BMPs may include maintaining in place some or al of the BMPs installed during the construction phase of the facility; BMPs shall be maintained until the facility is abandoned and final reclamation is achieved pursuant to rule 1004.

Corrective Action: Comply with rule 1002.f. to install BMPs in accordance with good engenieering practices at all oil and gas locations to control stormwater runoff in a manner that minimizes erosion, transport of sediment offsite, and site degradation.
