Hi Arthur,

I got your voicemail last week - I'm trying to track down why there were two samples here. As soon as I get those details, I will get back to you on that.

Thanks!

Paige

Hi Arthur,

Addressing your question on why two production gas samples were taken for the HighPoint Steinwald 29 well, two samples were taken for quality control reasons. Let me know if you need anything else on this!

Thanks!

Paige
