2 ☒ CA# 124769

Corrective Action: Stormwater controls in the southeastern project area need maintenance and replacement as needed. Stormwater controls are also needed along the access road to stabilize both sides of the culvert and flows entering the stream. Erosion controls are needed on well pad cut-slopes to provide stabilization until they can be stabilized within vegetation. Stormwater and erosion controls need to be selected and installed using good engineering practices such as those described in CDOT manuals.

Date: 05/31/2019

Response: CA COMPLETED

Date of Completion: 05/28/2019

Operator  
Comment: Stormwater controls corrective actions completed

COGCC Decision: Approved pending re-inspection
