General Comment:

This is an Abandoned Location Inspection, for Nine Wells, listed in Inspected Facilities above; APDs First Approved in 2008 for Orion Energy Partners; Permits Abandoned in 2011 by Williams Production. It does not appear that these AL Wells were drilled on Location with Two PR Wells; therefore these are Well Releases on an Active Location.

These Wells were passed for Final Reclamation in 2015; however they were inadvertently Checked in Field Inspection in August of 2018 giving them an Active Priority Status. This Inspection clears the mistaken Active Priority Status.
