General Comment:**COGCC Inspection Report Summary**

On Wednesday 2/26/20 at approximately 12:30 hours, I, Inspector Corey De Paolo, Conducted a follow up inspection at LARAMIE ENERGY LLC Vega /5 Pad, Location #334425 in Mesa County Colorado.

Refer to document #696600412 inspection conducted on 7/30/19. All previous corrective actions have been completed.

While there, I observed normal production operations.

During this inspection the following possible compliance issues were observed: Unused 1" nipple and wing half on separator burner. See photo #0648 with a corrective action date of 3/12/20.

During this inspection I noticed steam rising out of the fill cap of the glycol bath, of the 35-111 quad separator. This could be an indication that the glycol bath is too hot. I called Kenny Sackett Laramie Energy's Production Forman and left him a message stating what I saw.

A follow up on this site inspection needs to be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
