Complaint

Comment: Inspection in response to complaint.
 Field Inspector Assigned: Randy Silver
 Complaint Received
 Date: 2-26-2020
 Complaint Contacted:
 Date: 2-26-2020 Time: 9:13AM via phone
 Location ID # 455317
 Location name: Livingston
 Inspection Document # 693502297
 Complaint Document #200448698
 Nature of Complaint: Noise
 Field Inspector Actions:
 On 2-26-2020, I Randy Silver area field inspector was assigned a complaint received by COGCC staff in reference to Noise. The complainant Marti Johnson 4760 Raven run Broomfield CO stated the issues were occurring outside of complainants home.
 On 2-26-2020, I attempted to make contact with the complainant who indicated that on 2-24-2020 experienced a loud noise (sounds like a siren) inside home.
 I performed a complete site inspection of the oil and gas location and associated wells in the area. At time of inspection, I did not observe any unusual noise in or around location. At time of inspection there were three coil tubing units and associated equipment on site performing drill out phase. I requested third party sound data and after reviewing data it appeared the Livingston location at time of the complaints was within COGCC sound rules. Sound data will be attached to complaint inspection document.
 On 2-25-20, I spoke with Extraction Oil and gas Representative Nathan Bennett he stated since my inspection on 2-24-20 Extraction has removed one coil tubing unit. The two remaining units on site will both run during the day. At approx... 10:00 PM one unit will shut down until 7:00 AM next day so only one coil tubing unit will be performing nighttime operations.
 Weather conditions: Cloud and location muddy
 See inspection document #693502297 per my inspection.
 No violation of COGCC rules were observed at the time of the inspection.
 All information reviewed and site inspection information were submitted to the COGCC for further review.
