CORRECTIVE ACTIONS:

1 ☒ CA# 129084

Corrective Action: Control weeds no later than August 23, 2019. Flowering musk thistles need to be cut, bagged, and properly disposed of to prevent seed dispersal. Revegetation of interim reclamation areas needs to be conducted within the fall seeding window and no later than November 1, 2019.

Date: 08/23/2019

Response: CA COMPLETED

Date of Completion: 08/15/2019

Remove bag and dispose of Musk Thistle 8/15/2019. Interim reclamation areas revegetated on 10/1/2019.

Operator
Comment:

COGCC Decision: Approved pending re-inspection

COGCC
Representative:

2 ☒ CA# 129085

Corrective Action: Stormwater controls need to be installed to stabilize erosion on the well pad cut slope and along the southern edge. Sediment controls and maintenance of existing BMPs are needed to prevent sediment discharge from discharge points at the edges of the project area.

Lastly, erosion controls such as mulching and perimeter controls will be needed during revegetation to stabilize loose soils until stabilization is achieved with desirable perennial vegetation.

Date: 08/30/2019

Response: CA COMPLETED

Date of Completion: 08/16/2019

Operator Comment: Stormwater controles installed along the cut slope and along the southern edge of the location. Sediment controles installed to prevent sediment discharge from discharge points.

COGCC Decision: Approved pending re-inspection
