Test Date: 10/01/2019

**OPERATOR COMMENTS AND SUBMITTAL**

Comments

Initial off-location flowline registration and pressure test for the Sarti 24-6 and Sarti 24-10. The Sarti 24-6 is currently producing without gas sales while the Sarti 24-10 is shut in as a result of the Anadarko Third Creek Gathering System shut down. The Sarti 24-10 has two flowlines, one for the tubing and one for the casing. Prospects for reestablishing gas sales is unknown at this time.  
The location number of the Sarti 24-2 well (322147) near the Sarti's lease production facility was used as the end point for all off-location flowlines.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
