Comment:	<p>Inspection in response to complaint. 18#200448811 & 200448814</p> <p>Field Inspector Assigned: Adam Kraich</p> <p>Complaint Received:</p> <p>Date: 3/13/2020</p> <p>Complaint Contacted:</p> <p>Date: 3/13/2020 via phone call and email</p> <p>Location #: 440858</p> <p>Inspection Document #: 694400285</p> <p>Nature of complaint: Noise, Low Frequency (C-scale)</p> <p>Field Inspector Actions:</p> <p>On 3-13-2020 I received a complaint concerning low frequency (C-scale) noise suspected to be coming from the Simpson FD location operated by Great Western Oil & Gas.</p> <p>On 3-16-2020, I placed a sound meter 25' from the complainant's home per rule 802.d. (40.486854, -104.873407). The study began 3/16 at 13:16, and finished 3/18 11:57. The study only considered nighttime operations. In this case, I only used data from 21:00 to 7:00 in effort to isolate any neighborhood interference. Additionally, I eliminated all data from the 3/16 to 3/17 as the weather data shows a consistent wind speed of around 12 to 13mph. I am only using data from 3/17 @21:00 to 3/18 @7:00. The LEQ-2 (low frequency) level is 68.8.</p> <p>The results of the study indicate noncompliance under rule 802.d.</p> <p>See attachments for weather and sound audit details.</p> <p>All information reviewed and site inspection information were submitted to the complaint specialist for further review.</p>		
Corrective Action:	Comply with rule 802.d		Date: 04/08/2020
