2  CA# 137107

Corrective Action: remove all unused equipment and debris Comply with Rule 603.f .For unused , unmarked flow line risers 24 hrs. to lock out tag out. 30 days to remove riser.

Date: 04/15/2020

Response: FACTUAL REVIEW REQUEST

Basis for Review: Requested documentation was submitted prior to the inspection

Operator Comment: There is an ongoing remediation and construction project taking place on this location. Please reference COGCC Remediation #14050 and the documents for additional details. The tank, stairway and piping were moved from the original locations, as part of the excavation, assessment and remedial activities. These items are temporarily being staged on the perimeter of the location until they can be reinstalled and production activities can resume on the location. These items are not "unused" equipment and are used to support production activities on the facility. The exposed dump lines noted in the inspection photos are either "out of service flowlines" or previously abandoned flowlines that were exposed and partially removed during excavation activities. The "out of service flowline" meets all the listed requirements per Rule 1101.a.3. This line will be utilized when the tank is reinstalled and production activities resume. Some of the equipment noted as debris in the inspections photos will be removed (page 4 and 5 of photos) if it is no longer needed for operations. All the equipment in the inspection photos is located on the leased surface and supports operation of the lease. Grizzly Operating respectfully requests that this CA is revised or removed based on the information on-file with the COGCC or provided in this Factual Review Request.

COGCC Decision: **Not Approved**

COGCC Representative:

COGCC Supervisor: Photo log documents flow line and risers that are not LO/TO. Photo log documents equipment is stored off the lease, and in a hazardous manner.

OPERATOR COMMENT AND SUBMITTAL

Comment:

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
