Engineer	Emailed operator: Does this change the plan for 334-8 API 045-24096? Response: We will not be drilling the GM 334-8 well. I am planning on submitting Form 4s to abandon 6 permitted well locations on this pad and this is one of the wells. Several of these permitted wells have conductors that will be closed once drilling finishes so I can't submit the AL sundries until the conductors get closed. Here is a screen print of the revised multi-well plan for that pad that was submitted with Form 4 Doc #402177209.	10/10/2019
